Ice Panel Installation

Why Water Damage Occurs

With nowhere to go the water makes its way under shingles and into your home.

The snow and ice melts from underneath turning into trapped water.

Types of Ice Panels

Flat Envelope Seams

- 2 Feet Wide
- 3 Feet Wide

Ribbed Seams

- 3 Foot Ribbed
- 4 Foot Ribbed
- Special Lengths

Custom Made With

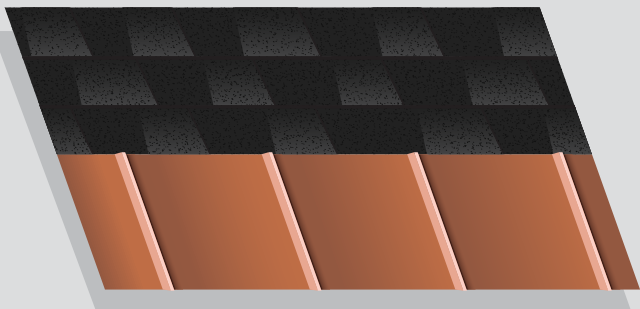

- .032" - .040" Aluminum
- 26 - 24 Gauge Steel
- 16oz - 20oz Copper

Works great for older homes with ventilation problems.

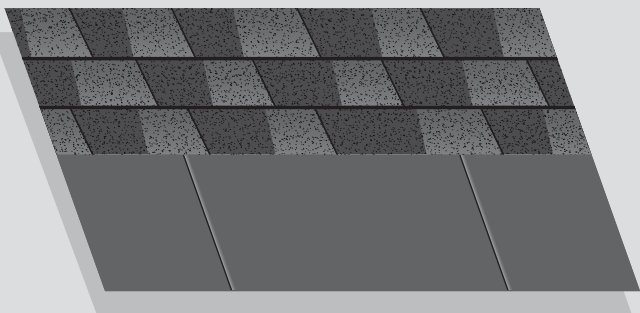

**Pre-painted with a
35 Year Warranty**

& it comes in 26 different colors.

Heated Ice Panels

Noticing Water Damage During The Winter Months?

WHY DO ICE DAMS HAPPEN?

- Poor Ventilation
- Inadequate Insulation
- Sometimes a Combination of Both
- Usually the North Side

DO ICE PANELS HELP?

- Allows snow and ice to fall off the edge of your roof
- Helps to prevent against back-ups
- Ice does not form a tight bond with metal like it does with shingles
